Connecting Global Energy

As global energy markets become increasingly interconnected, Egypt's role is evolving with them. Positioned at the crossroads of global energy flows, Egypt connects resources, infrastructure, investment and demand, creating a strategic link between global priorities and regional opportunity.

Markets are shifting.
Capital is moving.
Energy security is being redrawn.
New technologies are changing the economics of what comes next.

The future belongs to those who connect the opportunity because Africa's energy is a global opportunity.

Egypt: Hosting the Global Energy Conversation at a Historic Crossroads

> Let me once again stress the great importance of cooperation among us, with the countries of the Mediterranean and with the European Union in the field of energy.

HE Abdel Fattah El-Sisi
President, **Arab Republic of Egypt**

> We can transform uncertainty into stability, and stability into opportunity and prosperity through partnership and regional cooperation.

HE Nikos Christodoulides
President, **Republic of Cyprus**

From Eastern Mediterranean Partnerships to Global Supply

Cross-border cooperation is translating regional resources into investment, infrastructure and international energy flows.

Egypt's strategic role is defined beyond geography, by the partnerships that move energy across borders.

The Egypt Energy Show brings governments, operators and investors together around the agreements, infrastructure and investment needed to advance exploration, production and export capacity across the Eastern Mediterranean.

Building on cooperation between Egypt and Cyprus and agreements supporting development of the Aphrodite gas field, the 2027 show will convene global leaders for the next wave of partnerships connecting regional resources with European and global markets.

Partnerships Moving Energy Forward

EGYPT–CYPRUS cooperation
Strengthening pathways connecting Eastern Mediterranean gas resources with European markets.

APHRODITE / EGYPT–CHEVRON
Supporting development and export opportunities around the Aphrodite gas field.

GANOPE–BP
Supporting offshore exploration development in Block 6.

These agreements demonstrate the role of cross-border collaboration in strengthening infrastructure, accelerating investment and advancing energy development.

"Egypt Energy Show 2027 represents an important opportunity to showcase Egypt as a stable and attractive investment destination while strengthening regional and international partnerships across the energy sector."

HE Eng Karim Badawi
Minister of Petroleum and Mineral Resources,
Arab Republic of Egypt

Access the Markets Shaping Africa and the Mediterranean

Egypt Energy Show connects international suppliers with the governments, NOCs, IOCs, EPCs, infrastructure developers, utilities and investors shaping energy development across Egypt, Africa and the Mediterranean.

In Cairo, exhibitors can position their technologies and expertise against the priorities driving investment across exploration and production, gas and LNG, refining and petrochemicals, power and infrastructure, digitalisation and emerging energy technologies.

Reach the Buyers Behind Energy Projects

Engage operators, EPCs, government entities, utilities and developers responsible for technology selection, procurement and project delivery.

Build Market Access Across Africa & the Mediterranean

Channel Egypt's strategic position to develop relationships across regional markets while connecting with international investment, expertise and supply.

Position Solutions Against Real Industry Priorities

Showcase technology addressing production, infrastructure, efficiency, energy security, digitalisation and decarbonisation requirements.

Connect Across the Project Ecosystem

Meet organisations spanning upstream, midstream, downstream, power, infrastructure, engineering, finance, services and technology.

Turn Access into Commercial Pipeline

Advance conversations with new prospects, existing customers, partners and project stakeholders across the energy value chain.

Be Visible Where Future Direction is Shaped

Position your organisation alongside the policy, investment and technical discussions influencing the next phase of energy development.

The Global Energy Industry in Cairo

Egypt Energy Show convenes the organisations that develop, finance, engineer, operate and supply energy projects across global markets.

From NOCs and IOCs to EPCs, technology providers and service companies, the platform brings together the industry ecosystem required to turn strategic priorities into projects, partnerships and commercial opportunity.

Position Your Business Where Global Capability Meets Regional Demand

Country pavilions and international exhibitors bring technology, expertise and investment from global markets into direct contact with regional operators, buyers and government stakeholders.

Egypt Energy Show turns international participation into commercial access across Africa, the Mediterranean, the Middle East and beyond.

A Selection of Participating Country Pavilions

- CANADA
- CHINA
- CYPRUS
- EGYPT
- GERMANY
- GREECE
- INDIA
- ITALY
- POLAND
- SPAIN
- SOUTH KOREA
- TURKEY
- UAE
- UK
- USA

AI, Technology and Intelligent Energy Operations

The Innovation & AI Hub connects operators and technology providers around the applications already redefining energy performance, from predictive maintenance and industrial automation to cybersecurity, advanced analytics and intelligent infrastructure.

Key Areas of Focus

- Artificial Intelligence
- Digital Transformation
- Operational Optimisation
- Predictive Maintenance
- Cybersecurity
- Industrial Automation
- Data & Analytics
- Smart Infrastructure

The Egypt Energy Show reinforces the growing strategic importance of AI, digitalisation and operational technology in driving more intelligent, efficient and resilient energy systems.

Global Energy Leaders at the Egypt Energy Show

"The GCC countries are not only a major supplier of energy, but also aspire to play a pivotal role in ensuring the stability of international markets through responsible production policies and effective coordination in finding a delicate balance between supply and demand and immunising the global economy against sharp fluctuations."

HE Jasem Mohamed AlBudaiwi
Secretary-General
Gulf Cooperation Council (GCC)

"Egypt Energy Show 2026 continues to strengthen its role as a strategic platform connecting governments, operators and investors across the Mediterranean and beyond."

John Christmann
Chief Executive Officer
Apache Corporation

"Diversification of energy supply is essential for security and economic stability, and the East Mediterranean offers important new opportunities to strengthen reliable and diversified energy partnerships."

Ditte Juul Jørgensen
Director-General for Energy
European Commission

"The Egypt Energy Show brings together producers, technology providers, and industry leaders to advance critical dialogue on energy security, affordability, and sustainability, reinforcing Egypt's role as a vital global energy gateway."

Lorenzo Simonelli
Chairman and Chief Executive Officer
Baker Hughes

Enabling the Conversations Behind the Next Energy Decisions

As global energy navigates geopolitical realignment, infrastructure vulnerabilities and renewed competition for capital, the need for resilient markets, secure supply and long-term investment has never been more critical. At the heart of Egypt's global energy platform, the Egypt Energy Show 2027 Conferences bring the global energy leaders to Cairo to examine the decisions shaping what comes next.

Across 100 high-level sessions led by 400 global energy speakers, the multi-track Strategic and Technical Conferences span Ministerial, Secretary General and CEO dialogue through to specialist technical deep dives, giving delegates a comprehensive view of the opportunities and innovations set to define the decade ahead.

STRATEGIC CONFERENCE

The Egypt Energy Show Strategic Conference convenes policymakers, ministers, investors and energy leaders to examine the geopolitical, economic and technological forces defining today's energy landscape. The conference provides a high-level forum for dialogue focused on investment, infrastructure development, energy security and transformation pathways.

Ministerial discussions reinforce the importance of collaboration between governments, operators and investors in enabling long-term energy resilience and infrastructure development. The Egypt Energy Show further strengthens its position as a strategic platform supporting dialogue between policy, investment and industry execution.

Strategic Conference Programmes

- Global Energy Markets
- Gas & LNG
- Upstream Exploration & Production
- Electricity, Power Generation & Grid Infrastructure
- Refining, Petrochemicals, Chemicals, Fuels, Trade And Retail
- African Emerging Energy Markets
- Innovation, Artificial Intelligence, Electrification & Decarbonisation
- Renewables & Low Carbon Solutions
- Leadership & Development
- Finance & Investment

Connecting policy, investment and industry to advance global energy.

TECHNICAL CONFERENCE

The Technical Conference brings together engineers, geoscientists, operational specialists and technology leaders to explore practical solutions advancing operational efficiency, technical excellence and infrastructure performance.

Focused on real-world application and measurable outcomes, the programme showcases peer-reviewed research, engineering case studies and operational best practices supporting secure, affordable and sustainable energy systems.

Executive Networking and Experiences

Access at the highest level

An invitation-only bespoke environment for ministers, C-suite executives, senior policymakers and global CEOs to hold private meetings, advance strategic discussions and build high-value relationships away from the exhibition floor.

Exclusive Access for Energy Club Members to:

- Members Only-Private Lounge
- Private Meeting Suites
- Premium Networking
- VIP Concierge Services and Amenities
- Media-Free Environment

Dedicated for ministers, c-suite executives and policymakers, the Energy Club facilitates high-level engagement shaping the future direction of regional energy markets.

Where Future Energy Leaders Rise, Lead & Transform

The Young Professionals Programme focuses on developing future energy talent and strengthening industry engagement with students, graduates and early-career professionals.

The initiative reinforces the importance of future workforce development, industry accessibility and long-term talent investment across the global energy sector.

Young Professionals Programme Highlights

- Race-to-Zero Challenge
- Engineering the Future Hub
- Innovation Zone
  - Digital & AI Experience
  - Future Mobility & Smart Cities
  - Industrial Technologies & Robotics
  - Entrepreneurship & Start-Up Innovation
- Youth Forum
- Future Energy Leaders
- Immersive Learning Experiences

Gala Dinner
An Evening of Influence

Held under the patronage of the Ministry of Petroleum and Mineral Resources, the Egypt Energy Show Gala Dinner is the pinnacle of executive networking.

This private, high-profile gathering brings together ministers, global CEOs and industry visionaries for an elegant evening of diplomacy, celebration and relationship-building.

Energy Awards
Recognising Leadership

The Egypt Energy Show Awards honour bold, measurable contributions to innovation, sustainability and progress across the energy value chain.

Endorsed by the Ministry of Petroleum and Mineral Resources and judged by a distinguished international panel, the Awards set a benchmark for energy leadership.
