# Connecting Global Energy

As global energy markets become increasingly interconnected, Egypt's role is evolving with them. Positioned at the crossroads of global energy flows, Egypt connects resources, infrastructure, investment and demand, creating a strategic link between global priorities and regional opportunity.

Markets are shifting.
Capital is moving.
Energy security is being redrawn.
New technologies are changing the economics of what comes next.

The future belongs to those who connect the opportunity because Africa's energy is a global opportunity.

# Egypt: Hosting the Global Energy Conversation at a Historic Crossroads

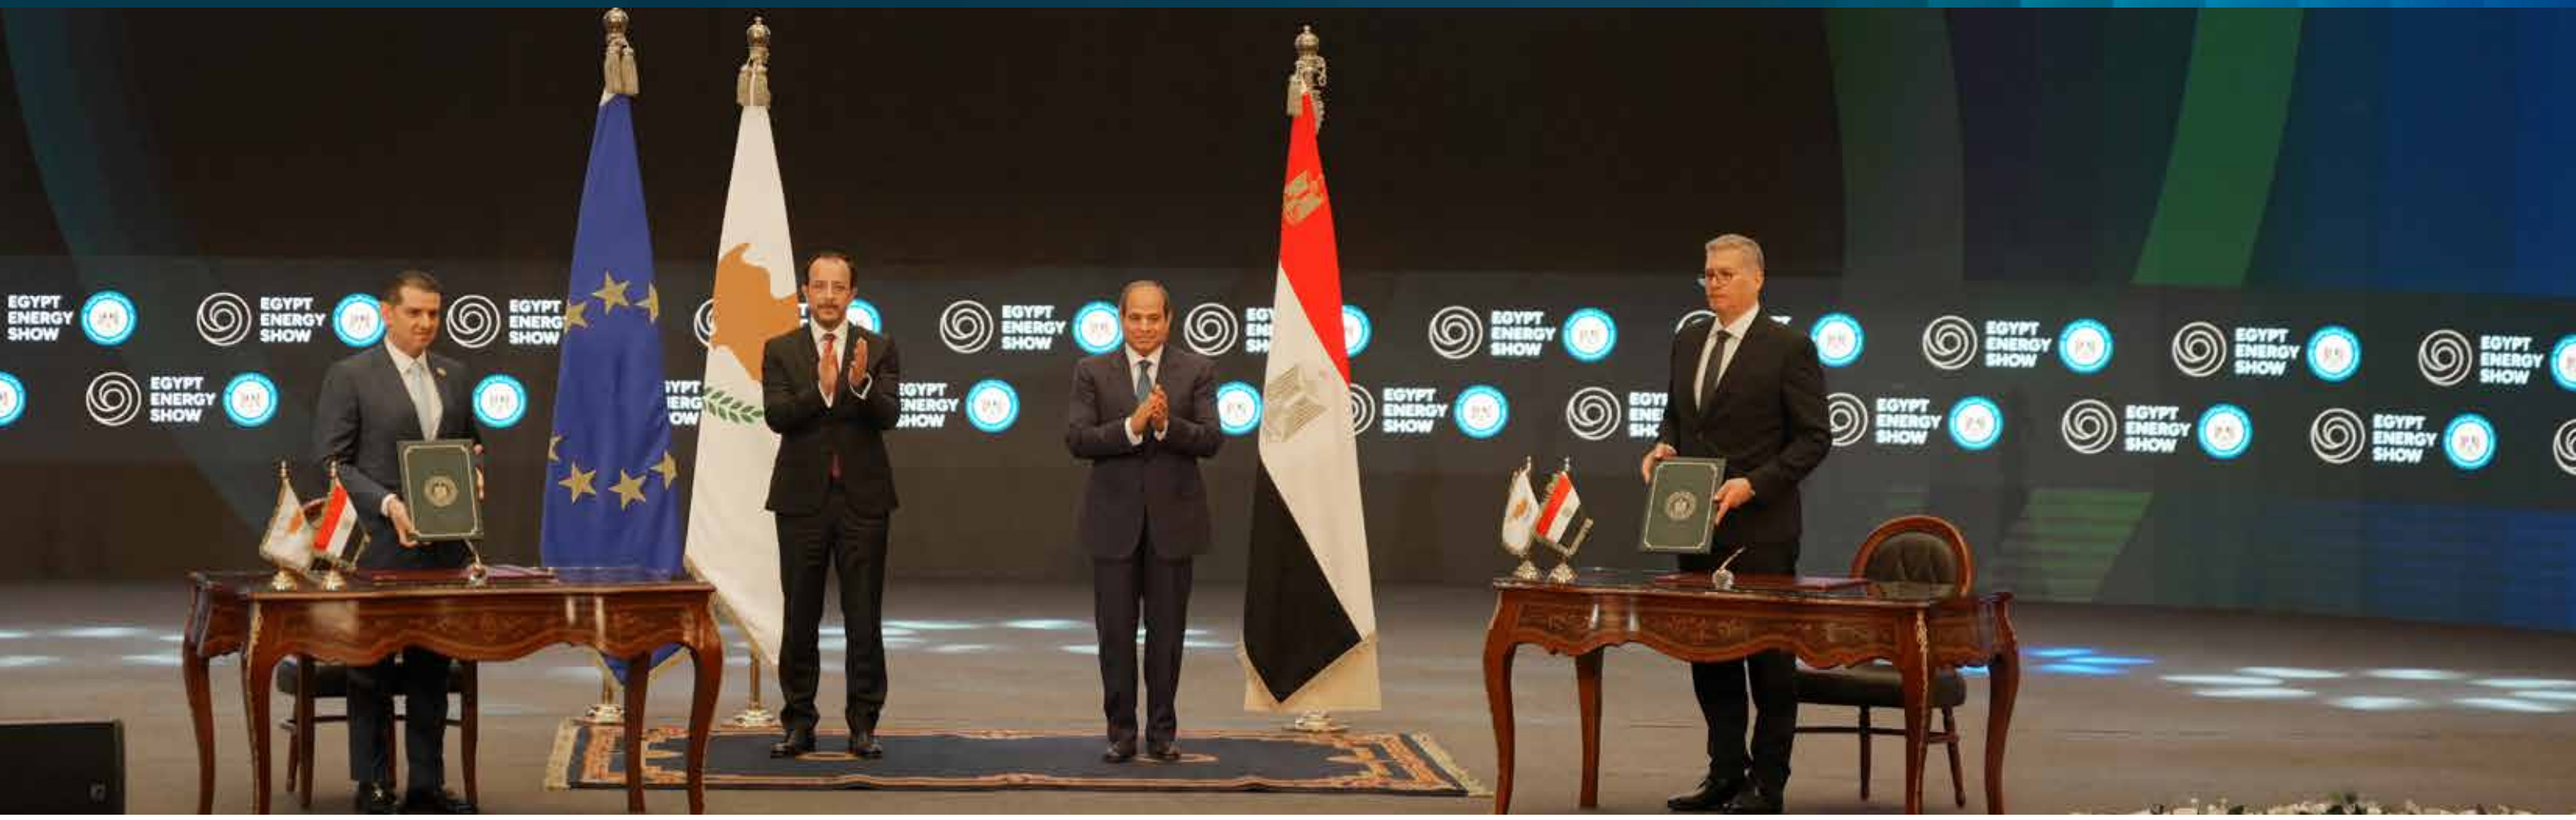
> Let me once again stress the great importance of cooperation among us, with the countries of the Mediterranean and with the European Union in the field of energy.

**HE Abdel Fattah El-Sisi**
President, **Arab Republic of Egypt**

> We can transform uncertainty into stability, and stability into opportunity and prosperity through partnership and regional cooperation.

**HE Nikos Christodoulides**
President, **Republic of Cyprus**

# From Eastern Mediterranean Partnerships to Global Supply



## Cross-border cooperation is translating regional resources into investment, infrastructure and international energy flows.

Egypt's strategic role is defined beyond geography, by the partnerships that move energy across borders.

The Egypt Energy Show brings governments, operators and investors together around the agreements, infrastructure and investment needed to advance exploration, production and export capacity across the Eastern Mediterranean.

Building on cooperation between Egypt and Cyprus and agreements supporting development of the Aphrodite gas field, the 2027 show will convene global leaders for the next wave of partnerships connecting regional resources with European and global markets.

### Partnerships Moving Energy Forward

**EGYPT–CYPRUS cooperation**
**Strengthening pathways connecting Eastern Mediterranean gas resources with European markets.**

**APHRODITE / EGYPT–CHEVRON**
**Supporting development and export opportunities around the Aphrodite gas field.**

**GANOPE–BP**
**Supporting offshore exploration development in Block 6.**

These agreements demonstrate the role of cross-border collaboration in strengthening infrastructure, accelerating investment and advancing energy development.

# Egypt's Global Energy Platform at a Glance

**60,000**
International Attendees

**2,500**
Conference Delegates

**600**
Exhibiting Companies

**400**

"Egypt Energy Show 2027 represents an important opportunity to showcase Egypt as a stable and attractive investment destination while strengthening regional and international partnerships across the energy sector."

**HE Eng Karim Badawi**
Minister of Petroleum and Mineral Resources,
**Arab Republic of Egypt**

# Access the Markets Shaping Africa and the Mediterranean

Egypt Energy Show connects international suppliers with the governments, NOCs, IOCs, EPCs, infrastructure developers, utilities and investors shaping energy development across Egypt, Africa and the Mediterranean.

In Cairo, exhibitors can position their technologies and expertise against the priorities driving investment across exploration and production, gas and LNG, refining and petrochemicals, power and infrastructure, digitalisation and emerging energy technologies.

## Reach the Buyers Behind Energy Projects

Engage operators, EPCs, government entities, utilities and developers responsible for technology selection, procurement and project delivery.

## Build Market Access Across Africa & the Mediterranean

Channel Egypt's strategic position to develop relationships across regional markets while connecting with international investment, expertise and supply.

## Position Solutions Against Real Industry Priorities

Showcase technology addressing production, infrastructure, efficiency, energy security, digitalisation and decarbonisation requirements.

## Connect Across the Project Ecosystem

Meet organisations spanning upstream, midstream, downstream, power, infrastructure, engineering, finance, services and technology.

## Turn Access into Commercial Pipeline

Advance conversations with new prospects, existing customers, partners and project stakeholders across the energy value chain.

## Be Visible Where Future Direction is Shaped

Position your organisation alongside the policy, investment and technical discussions influencing the next phase of energy development.

# The Global Energy Industry in Cairo

Egypt Energy Show convenes the organisations that develop, finance, engineer, operate and supply energy projects across global markets.

From NOCs and IOCs to EPCs, technology providers and service companies, the platform brings together the industry ecosystem required to turn strategic priorities into projects, partnerships and commercial opportunity.

# Position Your Business Where Global Capability Meets Regional Demand

Country pavilions and international exhibitors bring technology, expertise and investment from global markets into direct contact with regional operators, buyers and government stakeholders.

Egypt Energy Show turns international participation into commercial access across Africa, the Mediterranean, the Middle East and beyond.

## A Selection of Participating Country Pavilions

- CANADA
- CHINA
- CYPRUS
- EGYPT
- GERMANY
- GREECE
- INDIA
- ITALY
- POLAND
- SPAIN
- SOUTH KOREA
- TURKEY
- UAE
- UK
- USA

Book your stand at the Egypt Energy Show.

# AI, Technology and Intelligent Energy Operations

The Innovation & AI Hub connects operators and technology providers around the applications already redefining energy performance, from predictive maintenance and industrial automation to cybersecurity, advanced analytics and intelligent infrastructure.

## Key Areas of Focus

- Artificial Intelligence
- Digital Transformation
- Operational Optimisation
- Predictive Maintenance
- Cybersecurity
- Industrial Automation
- Data & Analytics
- Smart Infrastructure

The Egypt Energy Show reinforces the growing strategic importance of AI, digitalisation and operational technology in driving more intelligent, efficient and resilient energy systems.

# Global Energy Leaders at the Egypt Energy Show

"The GCC countries are not only a major supplier of energy, but also aspire to play a pivotal role in ensuring the stability of international markets through responsible production policies and effective coordination in finding a delicate balance between supply and demand and immunising the global economy against sharp fluctuations."

**HE Jasem Mohamed AlBudaiwi**
Secretary-General
**Gulf Cooperation Council (GCC)**

"Egypt Energy Show 2026 continues to strengthen its role as a strategic platform connecting governments, operators and investors across the Mediterranean and beyond."

**John Christmann**
Chief Executive Officer
**Apache Corporation**

"Diversification of energy supply is essential for security and economic stability, and the East Mediterranean offers important new opportunities to strengthen reliable and diversified energy partnerships."

**Ditte Juul Jørgensen**
Director-General for Energy
**European Commission**

"The Egypt Energy Show brings together producers, technology providers, and industry leaders to advance critical dialogue on energy security, affordability, and sustainability, reinforcing Egypt's role as a vital global energy gateway."

**Lorenzo Simonelli**
Chairman and Chief Executive Officer
**Baker Hughes**

# Enabling the Conversations Behind the Next Energy Decisions

Global energy markets have experienced significant volatility over the past year, with geopolitical tensions redirecting energy flows and testing the resilience of international trade. The largest oil supply disruption in history has highlighted that energy security is no longer defined solely by resource availability, but by the ability to build and operate complex infrastructure, maintain reliable trade routes and develop viable commercial models that bring energy to market.

Across 90 high-level sessions featuring 400 global energy speakers, the multi-track Strategic and Technical Conferences bring together ministers, secretary generals, CEOs and technical experts to discuss the policies, investment and technologies needed to build energy systems that can withstand shocks, respond to regional realities and meet growing demand and innovations set to define the decade ahead.

Energy Conferences

Where global energy priorities meet industry expertise and real-world action.

# STRATEGIC CONFERENCE

The Egypt Energy Show Strategic Conference convenes ministers, global energy leaders and investors to discuss the investment, strategies and partnerships needed to increase production, diversify supplies and trade routes, and build reliable infrastructure so energy systems can withstand future supply shocks.

Through a series of panel discussions, the Conference will assess how geopolitical shifts influence energy policy, investment decisions and cross-border cooperation, and how governments and industry can protect national and regional energy security. Discussions will also focus on a pragmatic transition that recognises the role of both conventional and cleaner energy sources in delivering secure, affordable and sustainable energy.

## Strategic Conference Programmes

- Global Energy Markets
- Gas and LNG
- Upstream Exploration and Production
- Electricity, Power Generation and Grid Infrastructure
- Refining, Petrochemicals, Chemicals, Fuels, Trade and Retail
- African Emerging Energy Markets
- Innovation, Artificial Intelligence, Electrification and Decarbonisation
- Renewables and Low Carbon Solutions
- Leadership and Development
- Finance and Investment

Connecting policy, investment and industry to advance global energy.

# TECHNICAL CONFERENCE

The Technical Conference brings together engineers, geoscientists, operational specialists and technology leaders to explore practical solutions advancing operational efficiency, technical excellence and infrastructure performance.

Focused on real-world application and measurable outcomes, the programme showcases peer-reviewed research, engineering case studies and operational best practices supporting secure, affordable and sustainable energy systems.

## Technical Conference in Numbers

## Technical Conference Categories

- Downstream: Refining Technology, Operations and Marketing (REF)
- Energy Economics, Governance, Agreements and Finance (EGAF)
- Downstream: Petrochemicals Technology and Operations (PET)
- AI and Digital Era (AIDE) — NEW
- Upstream: Exploration of Conventional Resources (CONV)
- Health and Safety (HS)
- Upstream: Exploration of Unconventional Resources (UNCONV)
- Project Management and Execution (PM)
- Gas/LNG Processing, Operations and Technology (GAS)
- Operational Excellence (OEX)
- Midstream: Infrastructure, Transportation and Storage (MID)
- People and Talent Development (PPL)
- Offshore and Subsea Production, Operations and Technology (OS)
- Geoscience (GEO)
- Decarbonisation, Energy Transition and Energy Efficiency (DTE)
- Oil and Gas Field Development (FD)
- Hydrogen, Biofuels, Alternative Fuels, Nuclear (ALT)
- Drilling (DR) — NEW
- Renewable Energy (RE)
- Completions and Well Engineering (COMPL) — NEW
- Environmental Sustainability and Climate Change (ESC)
- Asset Integrity & Corrosion Management (AICM) — NEW

# Executive Networking and Experiences

## Access at the highest level

An invitation-only bespoke environment for ministers, C-suite executives, senior policymakers and global CEOs to hold private meetings, advance strategic discussions and build high-value relationships away from the exhibition floor.

### Exclusive Access for Energy Club Members to:

- Members Only-Private Lounge
- Private Meeting Suites
- Premium Networking
- VIP Concierge Services and Amenities
- Media-Free Environment

Dedicated for ministers, c-suite executives and policymakers, the Energy Club facilitates high-level engagement shaping the future direction of regional energy markets.

# Where Young Talent Meets Global Ambition

As Egypt Energy Show 2027 celebrates its 10th anniversary, the Young Professionals Programme enters a new chapter, empowering the next generation of innovators, engineers, entrepreneurs and leaders who will shape the future of global energy.

The Young Professionals Programme connects students and young professionals with the industry leaders, emerging technologies, career opportunities and critical conversations shaping the future of global energy. Through immersive experiences, technical learning, innovation challenges, leadership development and industry engagement, participants gain the knowledge, skills and networks to thrive in a fast-evolving energy landscape.

## Young Professionals Programme Highlights

- Race-to-Zero Challenge
- Engineering the Future Hub
- Innovation Zone
  - Digital & AI Experience
  - Future Mobility & Smart Cities
  - Industrial Technologies & Robotics
  - Entrepreneurship & Start-Up Innovation
- Youth Forum
- Future Energy Leaders
- Immersive Learning Experiences

# Gala Dinner
## An Evening of Influence

Held under the patronage of the Ministry of Petroleum and Mineral Resources, the Egypt Energy Show Gala Dinner is the pinnacle of executive networking.

This private, high-profile gathering brings together ministers, global CEOs and industry visionaries for an elegant evening of diplomacy, celebration and relationship-building.

# Energy Awards
# Recognising Leadership

The Egypt Energy Show Awards honour bold, measurable contributions to innovation, sustainability and progress across the energy value chain.

Endorsed by the Ministry of Petroleum and Mineral Resources and judged by a distinguished international panel, the Awards set a benchmark for energy leadership.
