Egypt's goal is to play a prominent role in global energy trade flows and foster an environment that simulates better trade and business links among regional countries to ensure collaboration and alliance.

HE Eng Karim Badawi

Minister of Petroleum and Mineral Resources
Arab Republic of Egypt

DEFINING THE ENERGY ROADMAP FOR A REGION IN TRANSITION

Held under the patronage of **His Excellency Abdel Fattah El Sisi, President of the Arab Republic of Egypt**, the Egypt Energy Show (EGYPES) takes place from **30 March to 1 April 2026** at the Egypt International Exhibition Center, Cairo.

EGYPES convenes the full energy value chain, bringing together global innovators, technology providers, project developers, investors and policymakers shaping the next phase of energy across the region. Positioned at the strategic intersection of Africa, the Mediterranean and the Middle East, Egypt continues to strengthen its role as a regional energy hub and gateway for investment, innovation and cross-border collaboration. EGYGES reflects this momentum, creating a strategic and technical environment where partnerships are formed, solutions are showcased and business decisions move forward.

Across three days, visitors can explore a world class international exhibition featuring the latest technologies, products and services across oil, gas, renewables, infrastructure, digitalisation and future energy systems. Alongside the exhibition, a curated programme of leadership dialogues, technical sessions and industry briefings provide Conference delegates with market intelligence and insight into the trends shaping global and regional energy alongside invaluable networking opportunities for mutually beneficial partnerships and collaboration.

ADVANCING REGIONAL ENERGY COOPERATION

ALIGNING ON REGIONAL ENERGY PRIORITIES

EGYPES convenes governments, national energy companies, and global industry leaders to align on regional energy priorities. The show supports strategic dialogue across North Africa, Sub-Saharan Africa, and the East Mediterranean, reinforcing Egypt's role as a central energy hub.

UNDERSTANDING THE INVESTMENT LANDSCAPE

The exhibition and conference provide insights into high-impact investment pathways across the energy value chain, from infrastructure and supply chains to innovation ecosystems. EGYPEs highlights where capital deployment is accelerating energy security, growth, and resilience.

ADVANCING ENERGY INNOVATION

EGYPES showcases advanced technologies and solutions supporting Egypt Vision 2030 and the transition to secure, affordable, and sustainable energy systems, demonstrating how innovation is being translated into scalable, real-world applications.

DRIVING COLLECTIVE ENERGY ACTION

Through coordinated government-to-business engagement, EGYPEs supports informed policymaking, regional collaboration, and accelerated energy transformation, enabling alignment between policy, investment, and implementation to deliver measurable energy outcomes.

WHERE POLICY, INNOVATION, AND INVESTMENT CONVERGE

With governments, NOCs, IOCs, investors, and innovators under one roof, EGPES is the region's definitive gathering for strategic dialogue and tangible outcomes. It is here that critical decisions advance energy security, affordability and sustainability.

TECHNICAL CONFERENCE

Ambition translates into action at the EGPES Technical Conference where leading engineering talent and technology experts dive deep into the tools and methodologies transforming energy operations, with specific focus upon Africa and the East Mediterranean.

From operational excellence, emissions reduction, digital transformation and renewable integration, the conference delivers peer-reviewed insights, real-world case studies and practical knowledge – driving collaboration and action on energy security, sustainability and affordability.

Whether addressing enhanced oil recovery, AI-enabled maintenance or hydrogen infrastructure, the Technical Conference confronts the sector's real challenges and showcases real solutions that deliver measurable results.

TECHNICAL CONFERENCE CATEGORIES

NEW 2026

INNOVATION & AI HUB

The Innovation & AI Hub at EGPES 2026 is the new focal point spotlighting digital breakthroughs, AI-driven technologies, and pioneering start-ups reshaping energy efficiency, systems, and operations.

Through start-up pods, live demos, immersive simulations, and high-impact pitch competitions, the Hub showcases how Artificial Intelligence is applied across predictive maintenance, safety, real-time analytics, smart exploration, grid optimisation, and autonomous operations. It is where the future of energy solutions comes to life - delivering hands-on experiences, strategic connections, and transformative insights.

DAY 1, MONDAY 30 MARCH 2026 INNOVATION & AI START-UP PITCH

The Start-Up Pitch identifies and supports early-stage start-ups and entrepreneurs developing disruptive technologies in AI, digitalisation, infrastructure, decarbonisation and emissions reduction.

DAY 2, TUESDAY 31 MARCH 2026 INNOVATION & AI INDUSTRY PITCH

The Industry Pitch is for medium-to-large tech companies with mature, scalable technologies ready for regional deployment in fields such as AI, decarbonisation, digitalisation, clean energy and smart grid systems.

EGYPES ENERGY AWARDS

RECOGNISING LEADERSHIP

The EGPES Energy Awards honour bold, measurable contributions to innovation, sustainability and progress across the energy value chain. Endorsed by the Ministry of Petroleum and Mineral Resources and judged by a distinguished international panel, the Awards set a benchmark for energy leadership.

KNOWLEDGE PARTNER

IN PARTNERSHIP WITH:

CELEBRATING EXCELLENCE AND INNOVATION IN ENERGY

The EGPES Energy Awards spotlight credible contributions that inspire meaningful change and transformative progress, acknowledging both established leaders and emerging talent at the forefront of the energy transformation.

1 BEST HEALTH AND SAFETY PROJECT OF THE YEAR

Recognises projects that deliver measurable improvements in health and safety across the energy value chain, reducing risk while protecting workers, communities, and the environment through strong leadership, innovation, and alignment with global standards.

2 YOUNG ENERGY PROFESSIONAL OF THE YEAR

Celebrates young professionals who demonstrate outstanding leadership, innovation, and impact, driving successful project outcomes and contributing to the future growth and transformation of the energy industry.

3 PROCESS SAFETY EXCELLENCE

Acknowledges excellence in process and functional safety, highlighting initiatives that prevent major accident hazards, strengthen safety management systems, and reduce operational risk across energy operations.

NEW FOR
2026

4 EXCELLENCE IN DIGITAL TRANSFORMATION AND AI USE

Recognises digital and AI initiatives that deliver clear business value, enhance efficiency and decision-making, and enable secure, scalable transformation across the energy value chain.
