WELCOME TO THE EGYPT ENERGY SHOW - EGYPES

EGYPES, taking place in Cairo 30 March - 1 April 2026, is a prominent global platform that unites leaders from various sectors of the energy value chain, including energy, technology, finance, private enterprise, and the public sector. The upcoming edition of EGYPES aims to foster practical solutions for a future energy landscape characterised by reduced carbon emissions and collaborative growth.

Under the patronage and active participation of His Excellency Abdel Fattah El Sisi, the President of the Arab Republic of Egypt, EGYPES builds upon a rich history of innovation and progress. EGYPES serves as a dynamic hub that brings together diverse perspectives, facilitating meaningful discussions among regional and international thought leaders to tackle the most critical energy challenges.

As Egypt, alongside the wider Middle East, North African and the Mediterranean region, continues its journey towards energy security and transition, EGYPES 2026 seeks to forge partnerships for progress and timely action, strengthening Egypt's position as a leading force in shaping the future of energy.

EGYPES 2026 AWARDS

The EGPES Energy Awards will stand out as a key highlight of EGPES 2026, recognising the visionaries driving innovation, fostering collaboration, and leading the transformation of the energy sector towards a more sustainable future.

Aligned with EGPES' overarching theme, the awards will celebrate industry unity and progress, spotlighting groundbreaking solutions that accelerate the energy transition, support decarbonisation, and contribute to a sustainable, secure future for the global community.

With four carefully selected categories, the EGPES Energy Awards will honour pioneering projects and individuals delivering credible, impactful solutions to the challenges facing the global energy sector.

These categories will reflect the urgent need for universal access to cleaner, more secure energy and will highlight tangible, credible solutions that inspire meaningful change and transformative progress for the betterment of humanity.

At Harbour Energy, sustainability is at the heart of our operations, and EGPES 2025 provided the ideal platform to showcase our commitment to reducing emissions. In partnership with EGAS, we successfully executed Egypt's first zero-flaring project at Disouq, eliminating routine flaring at the site. Events like EGPES are crucial in driving forward meaningful sustainability initiatives and industry-wide collaboration.
